In search Of Excitement

L'uomo sportivo sceglie la ricerca di un occhiale "superiore", che dia affidabilità anche in situazioni estreme: lenti a specchio iperprotettive sottoposte a particolari trattamenti per far scivolare via acqua e polvere; montature performanti con naselli regolabili, aste antiscivolo e piccoli fori per il cordino. M.C.

A sporty man looks for "superior" glasses that are reliable even in extreme situations. This includes high-protection mirrored lenses that are specially treated to resist water and dust and performance frames with adjustable nose pads, slide-resistant arms and small holes for cords.
